## Events and Values

Each event has been given a value from 1 to 10, called the **Event Value**. The values have been set based on a number of criteria such as number of athletes, level of athletes competing, prize money and whether it is an International or Canadian field.

The **Value** of each event can be Increased or Decreased by a max of **1** value point after the event. This is done on the discretion of C~S and is based on an abnormality in competition level and/or numbers of competitors.

Rider's individual results in an event are called their **Event Ranking**.

For each event, the **Event Value** is divided by the **Event Ranking**, which generates **Points per Event**. The highest four (4) **Points per Event** for a rider over a 1-year period are added to get their **Total Points**. (Riders who attended less than 4 events are still being ranked as we are totaling the points and not making an average).

Every rider is ranked in their discipline by their **Total Points**. Men and Women are ranked separately.

*Rider Name: Jane Doe*

Event	Event Value	Event Ranking	Points per event
Canadian Open	7	25	0.28
Burton Am Series	4	10	0.4
Copper Grand Prix	9	15	0.6
MT Hood FIS	3	3	1

*Total Points 2.28 (X10) = 22.8*
