8. The number of competitive opportunities available to Canada Snowboard athletes is established by FIS and is described as the Canadian quota for the specific FIS event in question. Canada Snowboard reserves the right to offer competitive opportunities to fewer athletes than the number designated as the Canadian Quota. Grounds for any such decision must be discussed in detail and clearly documented by the Selection Committee and communicated to the impacted athlete(s). Such examples may include, but are not limited to, the athlete's ability to meet the minimum standards

and safely compete on the competition course.

FIS quotas can be referenced online at:

There are separate quota allocations for the Sr & Jr FIS World Championship events which involve all snowboard disciplines into the total team size, these can be referenced within the specific protocol on the CS Document Centre.

9. FIS will recalculate World Cup quotas based on the January FIS Points List with only an increase in quotas possible. Any personal quota spots will not change during the season. The FIS Points Lists are available for reference online at: <https://www.fis-ski.com/DB/snowboard/fis-points-lists.html>
10. The opportunity to participate in FIS freestyle competitions shall be offered to athletes in the order of their ranking as determined by the "Ranking Process" detailed in Sections 14-19 below.
11. Athletes who have earned individual World Cup spots through their status as defending World Cup, Jr World Championships or Continental Cup champions must still have their entry into World Cups ratified by Canada Snowboard.
12. Athlete selection for the following competitions will be determined no later than three weeks before the event:
 - a) All FIS World Cups
 - b) FIS Sr World Championships
 - c) All FIS NorAms
 - d) All international FIS events where entry is limited

Athlete selection for the following competitions will be determined no later than four weeks before the event:

- a) FIS Jr World Championships
13. To be eligible for selection to the FIS Sr and Jr WCH, athletes must meet the eligibility requirements within the specific WCH protocols located on the Canada Snowboard Document Centre:
<http://www.canadasnowboard.ca/en/docs>. These documents also contain the process on how quota for the WCH events will be allocated across all

disciplines for us to meet a maximum team, discipline or gender size.

RANKING PROCESS

14. Priority in the allocation of competitive opportunities is given to members of the National and NextGen Team in their respective disciplines.
 - a) National and NextGen Team members will be ranked and selected based on their WSPL points, skill level and long-term development plan as determined by the National Team coaches.

15. For all remaining competitive opportunities, interested athletes must communicate their intentions to participate by registering for the specific event online at least 30 days in advance of the event at:
<https://www.canadasnowboard.ca/en/team/resources/fisreq/>
 - a) *It is important to note that for Canada Snowboard to secure World Cup quota, we must submit names 60 days out from the event. If a rider is interested in any world cups they should inform us before then so we can maximize the chance of securing quota for the event and the interested rider. We will only submit names of interested parties at the time the world cup quota allocation will happen.*

16. Eligible athletes will be ranked, by gender, according to the World Snowboarding Points List (WSPL) in the respective discipline (HP, SBS and BA) at the time of selection. The WSPL is based on FIS, and other professional events and can be found online at:
<http://worldsnowboardtour.com/points-lists/>

Note: For Big Air, competitors will be ranked according to their highest points between SS or BA. Ties will be broken by BA points.

17. Exceptions for a riders rank and points with in the selection can be made. However, the grounds for any such decisions must be discussed in detail and clearly documented by the Selection Committee in their meeting minutes and must be in accordance with the general policies of the HPP.

18. Athlete participation in a World Cup, or Sr World Championships competition is conditional on the athlete meeting the Technical Minimum Standards applicable at the time of the selection (Appendix A).

SPECIAL RANKING CONSIDERATIONS

19. Selection rankings notwithstanding, Canada Snowboard may at any time withhold competitive opportunities as per the *"HPP Protocol for Return to Competition Protocol"* (General Policy).

20. On the basis of the Special Ranking Considerations listed below, and notwithstanding the selection rankings, Canada Snowboard shall have the discretion to select athletes to participate in an order other than that indicated by the rankings, and to select fewer male or female athletes than the maximum quota provided by FIS. The grounds for any such decisions must be discussed in detail and clearly documented by the Selection Committee in their meeting minutes and must be in accordance with the General Policies of the HPP. The General Policies are posted on the Canada Snowboard website within the "Document Centre".

Special Ranking Considerations include, but are not limited to the following examples:

- The athlete's level of physical conditioning evaluated in terms of the "Strength & conditioning Minimum Standards" established for the HPP and available for review at:
<http://www.canadasnowboard.ca/files/Strength&ConditioningMinStandards.pdf>
- The athlete's level of technical skill will be evaluated in terms of the HPP Technical Skills Chart and Athlete Development Matrix. Benchmarks are determined by performance demands of each discipline according to the Gold Medal Profile.
- Anomalies in competitions arising from factors such as weather or abnormally small field sizes, or the gross inflation of the points value of the event, which are considered by the Selection Committee to be a factor in the attainment of or failure to attain results.
- Gaps in the points used to rank athletes, which may be taken to represent a significant gap in performance ability. A significant gap will be defined as a 5% change of the maximum allowance of points. For instance, if using the FIS Points system (1000 Point Maximum) three athletes have 100, 97, and 96 points respectively, and the next ranked athlete has 45 points, a gap may be said to exist which indicates an athlete's potential ability or inability to compete at the same level as other Canada Snowboard athletes in the same discipline.
- An athlete who is showing very strong results may be moved higher than their calculated ranking.
- An athlete who shows excellent physical characteristics (measured in testing) or technical capability may be moved higher than her or his calculated ranking.
- An athlete who has failed to capitalize on numerous competitive opportunities and is therefore not progressing towards the program goal may move lower than his or her calculated ranking.

HEALTH RELATED CURTAILMENT OF ACTIVITIES

21. There may be occasions when an athlete who is otherwise selected to participate is, or becomes by reason of a health related curtailment of activities, unable to compete. In such circumstances, Canada Snowboard shall have the discretion to replace this athlete with another eligible athlete, provided that the athlete has been assessed by a Canada Snowboard approved physician and such assessment supports this decision.
22. Canada Snowboard may, at any time, require an athlete who is unable to participate in training or competition due to injury, to obtain a medical assessment from a team physician. The purpose of the medical assessment is to confirm the degree of the athlete's injury and to determine the expected timeline for the athlete's recovery to a suitable training and competition state.

COACHING

23. An athlete who is not coached by an official Canada Snowboard Coach may not participate in a FIS Snowboard Event without first obtaining approval from the High Performance Manager. The list of CS approved coaches can be found here:
<https://www.canadasnowboard.ca/en/programs/technical/coaching/currentcoach/>

Coaches registered outside of Canada may be approved on a case-by-case basis where the coach will need to accept and sign a liability form and send a photo of their coaching membership/license for approval to Tyler Ashbee High Performance Manager at: tyler@canadasnowboard.ca. Any concerns with respect to this requirement should be addressed at the earliest opportunity.

APPEALS

24. Any appeal of any decision of the Selection Committee may be made by any CS member in good standing. Appeals must be conducted in accordance with the Canada Snowboard Appeals Protocol, which is available on the Canada Snowboard website at:
<http://www.canadasnowboard.ca/en/docs>.

Members in good standing are also encouraged to consult the Canada Snowboard *Appeals Policy Process Map* which is available on the Canada Snowboard website at:
<https://www.canadasnowboard.ca/files/AppealsPolicyProcessMap.pdf>

GENERAL

25. Issues not otherwise covered by this Selection Protocol shall be resolved by Canada Snowboard's *"Dispute Resolution Policy"* which is available on the Canada Snowboard website (<http://www.canadasnowboard.ca/en/docs>).
26. This Selection Protocol is intended to apply as drafted and, specifically, where no athletes are prevented from competing because of an unforeseen injury or other unanticipated or unforeseen circumstances. Situations may arise where unforeseen circumstances or circumstances beyond Canada Snowboard's control do not allow competition or nomination to take place in a fair manner or in the best interests of the priorities and general principles for selection as indicated in these criteria, or do not allow the procedure for nomination as described in this document to be applied.

In the event of such unforeseen circumstances the Canada Snowboard Sport and High Performance Director will, where possible, consult with the Executive Director to determine if the circumstances justify competition or nomination should take place in an alternative manner. In such circumstances, the Sport and High Performance Director shall communicate the alternative selection or nomination process to all impacted individuals as soon as possible.

This Selection Protocol is based on FIS rules and regulations as presently known and understood and on the latest information available to Canada Snowboard. Any changes in the selection criteria and procedures necessitated by a change in the FIS rules and regulations will be distributed to the affected parties as soon as reasonably possible. Should such a circumstance occur, Canada Snowboard will review and amend this Selection Protocol to comply with new regulations or conditions. Amendments to this document will be communicated directly to the affected athletes as soon as is reasonably possible as well as posted to the Canada Snowboard website.
