

## YOUTH PERFORMANCE PROGRAM

---

The Youth Performance Program (YPP) is a Canada Snowboard Program that aims to provide more opportunities to all stages of athletes and coaches. This event will focus on providing technical guidance from National Team coach Mark Fawcett on coaching, pathways, training, and more. In alignment with the Alpine NorAm training, coaches can use Mark as a resource to ask questions about all things Alpine related. This will precede an afternoon presentation for athletes and coaches regarding the athlete pathway from Club to Next Gen Team and how it relates to events and training ratios, LTD stages, and expectations. The goals for this event are to provide further guidance to development and performance teams as well as to spread information to all relevant stakeholders in an athlete's pathway.

## ITINERARY

---
